CHAIRMAN'S SPEAKS...

Education is the basis of all progress. Education is not mere accumulation of facts; it is preparation of life itself. Education is knowledge imbued with wisdom and ethics. It develops the personality of the students, moulds their character and develops mental skills to help them cope with problems and challenges of the complex world of today.

Days are gone where children were fed with bookish information and assessed purely on the basis of rote learning and pen paper test. Gurukul is a result of a person's hardship, which a small town child has to go through in absence of facility and proper guidance. We together will provide all the facilities, tools and training to our rural kids and make them global citizen.

Education is futile if it fails to serve the purpose of real life. The Gurukul world public school exemplifies the fact that sky is not the limit in the pursuit of excellence. The aim of our school is to promote a system of integral education in a congenial child-friendly environment that emphasises the unity of all knowledge, synthesises humanity and sciences and recognises the fact that each child is unique. We believe that education should enable the students to soar high - morally, socially and spiritually. We aim to develop in our children an appreciation for the values of the past, the excitement of the present and the challenges of the future.

Together we will bring out the best in each child. We are confident that this school is the best place for your child. We welcome your active interest and involvement in the progress and activities of your child. We look forward to your continuous support.
